Worksheet One: What community leaders could do?

**Step 1:** Take a couple of minutes on your own to think about how you would answer the question below. Ask everyone to answer this question by jotting down an idea or two in the space below. Once you’ve a chance to make a few notes, go around the table and ask everyone in order to share one idea. If time allows, go around again to capture a second idea from everyone. Make sure that someone is taking notes for the group.

“What could community leaders do to improve quality of life for rural Nebraskans?”

**Step 2:** Share
The facilitator will provide directions on sharing highlights of your table group discussion.

Please leave this worksheet on the table for facilitators to collect when we adjourn.
Worksheet Two: How can the University help?

Step 1: Reflecting on the presentation about the new rural prosperity strategies under consideration, jot down your response(s) to the two questions below. Then share your ideas with the table group. Repeat sharing if time allows. Make sure that someone is taking notes and will be ready to report when asked.

“What do you like about the ideas presented on how the University of Nebraska might enhance rural community prosperity?”

“What other suggestions do you have about how to strengthen NU’s contributions to rural community prosperity?”

Step 2: Share
When asked by the facilitator, report a highlight from your group discussion.

Please leave your completed worksheets for facilitators to collect at adjournment.
